

ELEPHANT LONDON DRY GIN

Elephant London Dry Gin is a handcrafted gin inspired by Africa's rich nature and history. Distilled in small batches, it features 14 carefully selected botanicals – from traditional juniper and orange peel to rare African herbs – creating a uniquely deep and complex flavour. The result is a balanced and elegant gin with a subtle spice and a smooth, refined finish.

Elephant Gin is renowned for its commitment to wildlife conservation, donating 15% of its profits to protecting African elephants. Using only natural ingredients and a slow distillation process, the distillery ensures the highest quality and purity in every bottle.

Elephant London Dry Gin presents a crisp and fresh aroma with distinct notes of juniper, citrus, and subtle spice. The palate is complex yet balanced, featuring a refined blend of fresh herbs, piney juniper, floral undertones, and a soft, dry finish. The texture is smooth and velvety, with a gentle warmth from ginger and spices.
