

RYGR SURE-MAGDA MANGO & LIME SOUR

Dark golden yellow, with a fresh and pleasantly intense aroma of mango and lime. Fresh flavors of mango and lime.

Say hello to our Norwegian partner and brewery: RYGR

Rygene - The grain farmers who built Rogaland. They were a population that in the ages of Vikings lived in the southwest, primarily in Rogaland. Rygr has chosen 872 as "their" number, because this is traditionally considered the year for the sale of Hafrsjord. It is therefore perhaps not surprising that when Jæren's next largest brewery is established, it happen in the middle of the grain fields and pioneers on Jæren, at close quarters with Lalandsholmens in Frøylandsvatnet, where the legend tells that Olav Tryggvasson Hårfagre's direct descendant was born.
