

## TO ØL WHIRL DOMINATION

---

Whirl Domination is a New England IPA of 6.2%. This was the first beer brewed from To Øl's brand new brewery To Øl City!

Whirl Domination marks the full potential of To Øl's top modern new brewery set up with the German BrauKon's brewing system.

The name Whirl Domination reflects the extreme amount of hops added in the whirlpool tank, which is primarily used to extract aroma oils from the hops after the cooking process. This is to give more flavor, smell and aroma to the beer without adding too much of the bitterness. If the aim is to add bitterness to the beer, you boil the hops for a long duration in the wort process. But the volatile and often very aromatic and delicate hop oils cannot withstand a boil and will evaporate without providing any aroma to the finished beer. That's why, after finishing the boil, Two ØL choose to use the Whirlpool method to extract the most aroma from the hops. Domination comes from the fact that Two øL dominate this tank with the Simcoe and Citra Cryo hops which they fill with 20g hops per liter which is extreme. On top of that, Whirl Domination is dry-hopped twice creating an absolutely crazy, juicy, fresh and hazy NEIPA.

This beer marks a new chapter in To Øl's history and we are delighted to share it with you.
